ANNUAL REPORT 2020 -21

Broadvision World School has entered the 2nd year of its glorious academic journey from the humble beginning we made in 2020 to give a quality education. Through our Academic and Beyond Academics programs, we endeavour to provide a range of opportunities to help our students build essential life skills.

We focus on providing equal opportunity to every child, to bring out and hone their creative and social skills alongside imparting academic excellence.

We believe that learning happens at every age and it's a lifelong process, therefore we believe in providing a strong foundation for every child through and beyond academic programs with our well rounded curriculum.

We follow a constructive approach where learners and teachers will experience common activities, use and build on prior knowledge and experience, construct meaning and continually assist their understanding of concept.

We have adopted curriculum which supports different kinds of learning including experiential, traditional and enquiry based.

The student-centric teachers always assist to exhibit students the path to broadening their skills.

ENVIRONMENTAL DAY CELEBRATION
